Contents

NUMBER 1, FEBRUARY

X. Y. Chen, J. M. Bowler and J. W. Magee: Late Cenozoic stratigraphy and hydrologic history of Lake Amadeus, a central Australian playa 1

V. J. Morand: Stratigraphy and tectonic setting of the Calliope Volcanic Assemblage, Rockhampton area, Queensland 15

T. G. Powell, P. E. O'Brien and A. T. Wells: Petroleum prospectivity of the Clarence–Moreton Basin, eastern Australia: A geochemical perspective 31

R. B. Salama, P. Farrington, G. A. Bartle and G. D. Watson: The role of geological structures and relict channels in the development of dryland salinity in the wheatbelt of Western Australia 45

C. C. von der Borch and J. E. Hughes Clarke: Slope morphology adjacent to the cool-water carbonate shelf of South Australia: GLORIA and Seabeam imaging 57

W. K. Witt: Lithological and structural controls on gold mineralization in the Archaean Menzies–Kambalda area, Western Australia 65

M. Idnurm and C. A. Heinrich: A palaeomagmatic study of hydrothermal activity and uranium mineralization at Mt Painter, South Australia 87

Corrigendum 102

NUMBER 2, APRIL

P. H. G. M. Dirks, R. Offler and W. J. Collins: Timing of emplacement and deformation of the Tia Granodiorite, southern New England Fold Belt, NSW: Implications for the metamorphic history 103

D. J. Rawlings: Mafic peperite from the Gold Creek Volcanics in the Middle Proterozoic McArthur Basin, Northern Territory 109

S. G. Peters: Polygenetic mélange in the Hodgkinson goldfield, Northern Tasman Orogenic Zone 115

C. P. Rao: Oxygen and carbon isotope variation between dolomite and co-existing micrite pairs, Gordon Group (Ordovician), Mole Creek, Tasmania, Australia 131

D. M. Finlayson and C. D. N. Collins: Lithospheric velocity structures under the southern New England Orogen: Evidence for underplating at the Tasman Sea margin 141

C. G. Elliott, N. B. Woodward and D. R. Gray: Complex regional fault history of the Badger Head region, northern Tasmania 155

C. McA. Powell, P. W. Baillie, P. J. Conaghan and N. J. Turner: The mid-Palaeozoic turbiditic Mathinna Group, northeast Tasmania 169

J. H. Cann, A. P. Belperio, V. A. Gostin and R. L. Rice: Contemporary benthic Foraminifera in Gulf St Vincent, South Australia, and a refined Late Pleistocene sea-level history 197

R. J. Holcombe, N. H. S. Oliver, E. J. Hill and P. J. Pearson: Reply to Discussion: Tectono-metamorphic evolution of the Mary Kathleen Fold Belt, northwest Queensland: A reflection of mantle plume processes? 213

NUMBER 3, JUNE

M. Kennedy: The Undoolya Sequence: Late Proterozoic salt influenced deposition, Amadeus Basin, central Australia 217

R. M. Carter, D. P. Johnson and K. G. Hooper: Episodic post-glacial sea-level rise and the sedimentary evolution of a tropical continental embayment (Cleveland Bay, Great Barrier Reef shelf, Australia) 229

V. J. Morand: Structure and metamorphism of the Calliope Volcanic Assemblage: Implications for Middle to Late Devonian orogeny in the northern New England Fold Belt 257

D. G. Hannan: Geological Note: Two ages of till on the western edge of the Longford Sub-basin, near Poatina, Northern Tasmania 271

S. P. Turner, C. J. Adams, T. Flöttmann and J. D. Foden: Geochemical and geochronological constraints on the Glenelg River Complex, western Victoria 275

T. Cruse, L. B. Harris and B. Rasmussen: Geological Note: The discovery of Ediacaran trace and body fossils in the Stirling Range Formation, Western Australia: Implications for sedimentation and deformation during the 'Pan-African' orogenic cycle 293

N. B. Woodward, D. R. Gray and C. G. Elliott: Repeated Palaeozoic thrusting and allochthoneity of Precambrian basement, northern Tasmania 297

C. V. Murray-Wallace and R. W. L. Kimber: Further evidence for apparent 'parabolic' racemization kinetics in Quaternary molluscs 313

NUMBER 4, AUGUST

B. P. J. Stevens and G. J. Corbett: The Redan Geophysical Zone: Part of the Willyama Supergroup? Broken Hill, Australia 319

R. C. Horwitz and E. R. Ramanaidou: Slumping in the Marra Mamba Supersequence Package in the southern Hamersley Province, Western Australia 339

M. I. Bird and A. R. Chivas: Geomorphic and palaeoclimatic implications of an oxygen-isotope chronology for Australian deeply weathered profiles 345

A. P. Belperio: Land subsidence and sea level rise in the Port Adelaide estuary: Implications for monitoring the greenhouse effect 359

G. Bock: The Woods Reef (New South Wales) earthquake of 14 November 1990: Focal mechanism derived from amplitude ratios and synthetic seismograms 369

S. M. Llorca: Metallogeny of supergene cobalt mineralization, New Caledonia 377

R. P. Bourman: Perennial problems in the study of laterite: A review 387

C. L. Fergusson, R. A. Henderson, E. C. Leitch and H. Ishiga: Lithology and structure of the Wandilla terrane, Gladstone–Yeppoon district, central Queensland, and an overview of the Palaeozoic subduction complex of the New England Fold Belt 403

P. M. Ashley and S. E. Shaw: Apparent ages of hydrothermal alteration zones in the North Arm Volcanics, southeast Queensland 415

A. P. Belperio and R. B. Flint: Geological Note: The southeastern margin of the Gawler Craton 423

NUMBER 5, OCTOBER

M. Ahmad: The origin of tin deposits in the Mount Wells region, Pine Creek Geosyncline, Northern Territory 427

J. R. De Laeter and W. G. Libby: Early Palaeozoic biotite Rb–Sr dates in the Yilgarn Craton near Harvey, Western Australia 445

B. M. McKavanagh, B. W. Boreham, R. J. Cuthbertson, K. F. McCue and W. V. Cooper: The Bajool earthquake sequence of 1991, and implications for the seismicity of central Queensland 455

F. L. Sutherland: Late thermal events based on zircon fission track ages in northeastern New South Wales and southeastern Queensland: Links to Sydney Basin seismicity? 461

J. Ferguson, H. Etminan and F. Ghassemi: Geochemistry of deep formation waters in the Canning Basin, Western Australia, and their relationship to Zn–Pb mineralization 471

B. E. Chenhall and S. A. Mazaheri: Skarn development from limestone adjacent to the Glenrock Granodiorite, Marulan Batholith, New South Wales, Australia 485

E. Kamenev, A. V. Andronikov, E. V. Mikhalsky, N. N. Krasnikov and K. Stüwe: Soviet geological maps of the Prince Charles Mountains, East Antarctic Shield 501

NUMBER 6, DECEMBER

R. A. Creaser and C. M. Fanning: A U-Pb zircon study of the Mesoproterozoic Charleston Granite, Gawler Craton, South Australia 519

G. J. Davidson and S. A. Dashlooty: The Glyde Sub-basin: A volcaniclastic-bearing pull-apart basin coeval with the McArthur River base-metal deposit, Northern Territory 527

J. McPhie: The Tennant Creek porphyry revisited: A synsedimentary sill with peperite margins, Early Proterozoic, Northern Territory 545

R. I. Hill and I. H. Campbell: Age of granite emplacement in the Norseman region of Western Australia 559

M. W. Rehfisch and J. A. Webb: The Early Devonian Coopers Creek Limestone: A deep-water redeposited limestone in the Melbourne Trough, southeastern Australia 575

R. A. L. Osborne: Geological Note: Cave formation by exhumation of Palaeozoic palaeokarst deposits at Jenolan Caves, New South Wales 591
